

AeroMini

Fresh, healthy indoor air.
No filters. No chemicals.

HIGHLIGHTS

- ✓ Neutralises odours, VOCs, mould spores and allergens
- ✓ Compact – free-standing or wall-mounted
- ✓ Three power levels, intuitive to operate
- ✓ Low-maintenance in continuous operation

ADDED VALUE

Noticeably fresher air from day one:

The ionised room air neutralises odours and other pollutants directly in the room – **without filter changes or chemicals**, at minimal running costs.

🌀 With fan

||| 3 power levels

⌚ Manual operation

⚡ Only approx. 3 watts

THE TECHNOLOGY · LIKE A THUNDERSTORM

1

Activating oxygen

The ionisation tubes charge the oxygen positively and negatively.

2

Enveloping pollutants

The charged ions envelop odours and other pollutants.

3

Neutralising

The pollutants are rendered harmless directly in the room air.

4

Fresh-air level

The result: naturally fresh air – entirely without filters or chemicals.

< 25 dB

virtually silent – ideal for living & sleeping areas

100 %

sustainable technology – no filter waste, no chemicals

100 %

personal support & service, Made in Germany

MINIMALIST DESIGN

Engraved on/off switch, entirely without labelling – a clean, fingertip-operated control surface in a minimalist acrylic stone housing.

WHEREVER GOOD AIR MATTERS

Living rooms & bedrooms

Care & retirement homes

Offices & meeting rooms

Washrooms & medical practices

Hotel & guest rooms

further applications

●●● Perforated device covers available in **white, grey & anthracite**.

MAXIMUM ROOM VOLUME

Recommended room volume in m³ – depending on the indoor air load.

low load	medium load	high load
70 m ³	35 m ³	15 m ³

Note: the values apply to standard operation at medium ionisation power. At higher or lower power levels, the recommended room volumes change accordingly.

Low load

Offices, meeting rooms, private households (without special requirements), etc.

Medium load

Medical practices & waiting rooms, care & retirement homes, food & kitchen odours, moderately used washrooms.

High load

Heavily used washrooms & smoking rooms. Observe the max. room volume – a larger unit or several AeroMini units may be advisable.

Power consumption	approx. 3 W
Dimensions (WxHxD)	70x155x160 mm
Weight	approx. 960 g
