

AirCleanerHome

Fresh, healthy indoor air.
No filters. No chemicals.

HIGHLIGHTS

- ✓ Neutralises odours, VOCs, mould spores and allergens
- ✓ Manufacturer-independent – for new and existing systems
- ✓ Ideal for single- & two-family homes with ventilation
- ✓ Continuous air purification in permanent operation

ADDED VALUE

Air quality for your home: Ionised air neutralises odours and other pollutants directly in the room. No filter changes, no chemicals – at **minimal operating costs**.

📏 Compact design

⚙️ Individual control

🔧 Low maintenance

THE TECHNOLOGY · LIKE A THUNDERSTORM

1

Activate oxygen

The ionisation tubes charge the oxygen positively and negatively.

2

Envelop pollutants

The charged ions envelop odours and other pollutants.

3

Neutralise

The pollutants are rendered harmless directly in the air.

4

Fresh-air level

The result: naturally fresh air, without filters or chemicals.

Up to –30 %

lower operating costs than filter-based systems

100 %

sustainable technology, no filter waste or chemicals

100 %

personal support & service, made in Germany

WHEREVER GOOD AIR MATTERS

Requirement: central ventilation system in the house – new build or existing

WHAT THE UNIT NEUTRALISES

↓ Odours from outside air

Farming, restaurants, traffic fumes, fireplace and barbecue smoke, waste bins, industry.

↻ From the indoor air

Odours from kitchen, bathroom and pets as well as mould and allergens.

EASY INTEGRATION

- 1 Cut the supply air duct
- 2 Fit the unit in between
- 3 Connect and switch on

No modification of the system required.

MAXIMUM AIR VOLUME FLOW

Recommended values – depending on indoor air pollution.

low load	medium load	high load
350 m ³ /h	200 m ³ /h	100 m ³ /h

Note: The values apply to standard operation at medium ionisation output. At higher or lower output levels the recommended values change accordingly.

Low load

Bedrooms & living rooms, home office, low-traffic living areas, etc.

High load

Open-plan kitchens, households with pets, smoking households, etc.

Medium load

Kitchen & dining area, bathroom, moderately used living rooms, etc.

Power consumption	approx. 10 W
Ionisation tubes	2 (IRE)

- Since 1978
- Made in Germany
- Scientifically proven
