

AirCleanerQ

Fresh, healthy indoor air.
No filters. No chemicals.

HIGHLIGHTS

- ✓ Neutralises odours, VOCs, mould spores and allergens
- ✓ Space-saving integration into suspended ceilings
- ✓ Standalone – independent of any ventilation system
- ✓ Continuous air purification in permanent operation

ADDED VALUE

Invisible in the ceiling, noticeable in the air: Ionised air inactivates odours and other pollutants directly in the room – with no filter changes, no chemicals and at **minimal operating costs.**

Compact design

With fan

Plug & Play

Remote control

THE TECHNOLOGY · LIKE A THUNDERSTORM

1

Activate oxygen

The ionisation tubes charge the oxygen positively and negatively.

2

Envelop pollutants

The charged ions envelop odours and other pollutants.

3

Neutralise

The pollutants are rendered harmless directly in the room air.

4

Fresh-air level

The result: naturally fresh air, entirely without filters or chemicals.

Up to –30 %

lower operating costs than filter-based systems

100 %

sustainable technology, no filter waste or chemicals

100 %

personal support & service,
Made in Germany

WHEREVER GOOD AIR MATTERS

Rooms with suspended ceilings

Offices

Conference rooms

Schools & education

Classrooms

Hospitality

Reception areas

Further applications

☀ INTEGRATED VOC SENSOR

The built-in VOC sensor measures air quality and adjusts the output automatically.

MAXIMUM ROOM VOLUME

Recommended room volume in m³ – depending on the indoor air load.

low load	medium load	high load
170 m ³	85 m ³	30 m ³

Note: the values apply to standard operation at medium ionisation output. At higher or lower output levels the recommended room volumes change accordingly.

Low load

Offices, meeting rooms, private homes (without special requirements), etc.

High load

Food production, waste rooms, smoking rooms, heavily used washrooms, etc.

Medium load

Food and kitchen odours, moderately used changing rooms and washrooms, gyms, etc.

Power consumption	max. 30 W
Ionisation tubes	2 (IRD)

● Since 1978
